

What are Students saying about APICS Education in Colorado?

"The APICS CPIM classed taught by the APICS Colorado Chapter 81 was outstanding. The knowledge the instructors bring to each class made understanding the material very easy. Every detail has been thought through from how the classroom is set up to help people become engaged and to stay engaged during the class, to bringing in specific instructors who specialize in specific topics, makes this a fantastic learning environment. I believe I will have the competitive advantage when taking what I have learned from the classes and applying it to my career." **Mike Hansen, CPIM, Air Methods**

"I was fortunate to get enrolled in the first ever CLTD class provided by (Colorado) APICS. The class was well put together and closely related to what I do on a daily basis. APICS provides five books and an online portal specifically for the CLTD class with all the necessary material and practice tests. There were many participants in the class from different industries and various areas within their companies, so it was a great platform to learn from other's experiences. I walked away with a better understanding of Logistics and how it impacts all areas of the supply chain, as well as the increasing importance for companies to have a well-planned and efficient supply chain. I will be able to take the knowledge I gained from this training and apply directly to my job. **Ben Osenbaugh, CPIM, CLTD, VP of Supply Chain, Organic Family Farms**

"The APICS classes were the best way I could have studied for the CPIM testing. They were very convenient to take while I worked, even during the busiest part of the year. Eight hour classes may seem like a lot on a Saturday but the instructors are so energetic and dedicated to you understanding the material that the time flies by. By the end of each class I had a brand new understanding of concepts I wasn't able to grasp by just using the study material alone. One of the coolest aspects of APICS was the community. The classroom consisted of peers from all different walks of life and job perspectives and the out of classroom activities introduced me to even more people of the APICS community." **Aaron Littlefield, Planner Principal, Ball Aerospace**

"As a young professional looking for a way to further my career and knowledge of Supply Chain, I found these classes from the local APICS Colorado Chapter. The instructors are very experienced in the supply chain industry and teach in a way that makes the material easy to understand and fun to learn. The classes have helped me in my current job complete projects with confidence. There were also great students that helped me learn from their experiences as well as build many friendships. I would highly recommend these courses to anyone new to the supply chain industry, or even those that have been in the industry for a while, anyone who deals with the supply chain of a company. It will help tremendously. I plan on getting the CSCP certification in the future and will take the classes from these instructors, there's just no other way." **Joseph McQueen**

"The APICS CSCP certification has equipped me with greater knowledge and understanding of the evolving field of supply chain management. The Instructor-led APICS Learning System offered by Colorado Chapter 81 helped prepare me for the exam by providing a platform to acquire, discuss and solidify key principles and terminology for current day business operations. I highly recommend this class-type setting, as you will learn as much from the dedicated instructors as from your fellow industry-wide classmates. **Tom Baird, CSCP, CPIM, Purchasing & Import Logistics Manager, AirHead Sports Group**
