CPIM Accelerated Courses

Again this year we will be offering a chance to sign up for the CPIM certification courses at one time and be assured that the classes would not be canceled.

- The program will consist of both the CPIM Introduction and CPIM course for the CPIM Program unless you have already started taking a course, in which case your fees will be adjusted.
- One price will include course fees and exam credit, online learning component and all participant workbooks: \$3,250 for Certification-Level Members and \$3,450 for all others.
- Payment for all courses is due before the start of the first course.
- **Minimum of 12 students must enroll.**
- Classes will not be canceled (even if some students drop out), since they are scheduled and paid for by the whole class in the beginning.

CPIM Accelerated course is instructor-led online class

Classes will be held on Saturdays for 8 hours
8 am until 5 pm MT (1 hour lunch)

- | | |
|----------------------------|--------------------------|
| • CPIM Introduction | Feb 17, 24 & Mar 2, 2024 |
| • Break | |
| • CPIM Section A | Mar 16 & 23, 2024 |
| Section B | Apr 13 & 20, 2024 |
| Section C | May 11 & 18, 2024 |
| Section D | Jun 8 & 15, 2024 |

"I began working toward obtaining my CPIM soon after beginning my career in manufacturing. Everything I have learned from APICS/ASCM has elevated my effectiveness in my job, even before I received the certification. The classes I attended with Colorado Chapter 81 were especially additive in my education, analogizing the often-difficult study concepts to real-world, recognizable organizations and scenarios. If your career has anything to do with supply chains, production, quality, purchasing, etc., you cannot go wrong with CPIM." **Jason Rhine, CPIM, Production Planner, Gogo Business Aviation**

If you have interest in this program, you can contact Honey Johnson, VP of Education
(303) 421-0797 or hjohnson@mss-technologies.com

APICS Certified Supply Chain Professional (CSCP)

CSCP Learning System Components:

The CSCP Learning System is a comprehensive professional development program that will help candidates prepare for the CSCP examination. The learning system is based on the CSCP body of knowledge and features print- based study materials as well as online tools, including an assessment component that enhances the learning experience.

CSCP Modules

- Module 1: Supply Chains, Demand Management and Forecasting
- Module 2: Global Supply Chain Networks
- Module 3: Sourcing Products and Services
- Module 4: Internal Operations and Inventory
- Module 5: Forward and Reverse Logistics
- Module 6: Supply Chain Relationships
- Module 7: Supply Chain Risk
- Module 8: Optimization, Sustainability and Technology

Colorado Chapter Courses for CSCP: *We have room for 15 students*

- Classes on Saturdays, March 9, 23 & 30, April 6 & 20, 2024.
- The Spring 2024 course will be an **online** Instructor-led class.
- Class includes one set of student materials, including online access and exam credit.
- \$2,850 for Certification-Level Members, \$3,050 for all others

Note: Eligibility requirements for CSCP have been eliminated.

"I wanted to take the APICS CSCP certification to improve my understanding of the supply chain and increase my employment prospects. I discovered that I did several things well in my previous job but I learned so many new practices and ideas that I will be able to take with me to a new job.... During the classes, the interaction with very knowledgeable instructors and fellow students from different industries was extremely interesting and edifying. They were more than willing to share their personal experiences and answer questions regarding the content of the class and how to put it into practice in the real world. The Colorado Chapter 81's high exam passing rate is a testament to the skill and passion of their instructors and the APICS Body of Knowledge course material. I am also taking the CPIM course and I would highly recommend it. These courses are valuable tools to greater success and advancing further in your career." **John S. Wood, CSCP**

**If you have interest in this program, you can contact Honey Johnson, VP of Education
(303) 421-0797 or hjohnson@mss-technologies.com**

Presents:
APICS Sales & Operations Planning (S&OP)
Online Course

Tuesdays, March 5, 12, 19 & 26, 2024

Or

Roger Harris, President and Coach at rharris@mss-technologies.com

General Shale "I recently completed the excellent S&OP training class offered through ASCM Colorado Chapter. Chapter. About 1 year ago my company began a formal S&OP process, and I was asked to take on the facilitator role. Although I've been exposed to S&OP concepts, I found the training class covered essential fundamentals that reinforced and strengthened my understanding. The learning environment created a solid forum to discuss specifics about our business and how the S&OP process can be more effective. The course pacing allowed time to absorb material and understand the critical factors to ensure S&OP success. I took away several important changes to implement in the S&OP process which will strengthen my company's bottom line! This course was the same high-quality product I've come to know ASCM Colorado Chapter to offer, and I speak from experience holding my CPIM and CSCP training through the Colorado Chapter's classes!"
Tony Fabrizio, CPIM, CSCP, General Shale Brick

APICS Certified in Logistics, Transportation and Distribution (CLTD)

Expand your knowledge and understanding with a broad range of topics in the fields of Logistics, Transportation and Distribution. Improve your skills by learning the latest trends in global logistics and supply chain best practices.

CLTD Learning System Components:

The CLTD Learning System is a comprehensive professional development program that will help candidates prepare for the CLTD examination. The learning system is based on the CLTD body of knowledge and features print-based study modules as well as online tools, including an assessment component that enhances the learning experience.

Eligibility application for CLTD is no longer required.

CLTD Modules

- Logistics Overview & Strategy; Capacity Planning and Demand Management
- Order Management and Inventory Management
- Warehouse Management; Transportation Management
- Global Logistics; Logistics Network Design
- Reverse Logistics and Sustainability

Colorado Chapter Courses for CLTD:

- Classes on Saturdays, April 27, May 4 & 18, June 1, 8 & 22, 2024
- **20 student limit**
- The course is an instructor-led online course
- Class includes student materials, online tools access and exam credit
- \$2,650 for Certification-Level Members, \$2,850 for Non-Members

(303) 421-0797 or hjohnson@mss-technologies.com

HunterDouglas 

"I highly recommend the CLTD offered through Colorado ASCM/APICS to any supply chain professional interested in furthering their career. This course offers extensive review of the entire logistics networks, distribution strategies, and supply chain connectivity from demand and supply planning." **Stephen Robles C.P.M, CPIM, CSCP, Director of Materials & Warehouse Operations, Hunter Douglas**

Class Procedures

Classes: Certification classes are designed to assist you with your preparation for CPIM, CSCP and CLTD certification examinations. CPIM Introduction is an introductory class. All other classes are intended for people with either academic or on-the-job experience. Non CPIM/CSCP/CLTD courses are general education not certification courses.

Private Classes: We are happy to discuss private corporate classes upon request. Contact Honey Johnson, VP of Education at (303) 421-0797 or apicsco81@aol.com

Exam Credits: Credits for the CPIM/CSCP/CLTD exams are good for 6 months from the date of exam credit issue. Please do not request a credit until you are ready to sit for the examination. ASCM Colorado Chapter honors requests for Exam Credits up to 2 years from date of certification course registration.

Refunds: All refunds will be considered on a case-by-case basis and will be awarded at the discretion of the VP of Education.

Retakes: If you have taken a review class from us in the past 12 months and have not passed the corresponding examination, you can retake the class at no charge, otherwise class retakes are \$100. You will need to provide a copy of your ASCM Colorado Chapter class certificate and bring your book to class. Other re-take options will be considered on a case-by-case basis.

Certificates of Recognition: Certificates are awarded on the basis of attendance.

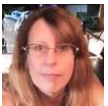

Computer-Based Testing (CBT) Registration at Pearson VUE Test Centers: Registration requires a minimum of 48 hours up to 90 days in advance. Exams will be offered six days a week. **Visit the ASCM web site at www.ascm.org/certification to access a link to the secured Pearson VUE online registration site and obtain an Authorization to Test (ATT)**

Instructors: All instructors are qualified, experienced professionals and are ASCM Certified instructors and participating in the ASCM Instructor Development Program (IDP).

A Diversey Company

"This CSCP course has been useful to me by providing me with a broad understanding of supply chain planning as well as specific tools and frameworks for approaching problems." **James Reagan, Buyer, Birko Corporation**

"I would like to thank Roger Harris and Honey Johnson for their dedication in the APICS CPIM classes. I did the self-study on the CPIM Part 1 and passed, so I attempted the self-study on the CPIM part 2. I scored a 299 and failed. I got right back on it and was studying again, and I could just not get my head into it. I discovered the classes with Roger and Honey and decided it would be worth the 8 Saturdays to become CPIM certified. I found the classes kept my attention and kept me on track better than learning on my own and found myself immediately using what I learned in my job. Roger and Honey kept the classes very entertaining and used real life scenarios to teach each subject which helps the students grasp the materials better. I took the CPIM part 2 immediately after the class and passed with room to spare. I think the classes were very much worth the time and the money and would recommend them to become certified." **Dorothy Monsees, CPIM, Buyer/Planner, Nordson Medical**

"It (S&OP Class) was fantastic. I think it was a huge eye opener for everyone involved and showed us a lot of gaps we have where we need to focus our efforts. I've received nothing but positive feedback on the class so far. Everyone is really getting a lot from it." **Rachael LaFollette, CPIM, Supply Chain Planning Manager, AlloSource**

What are Students saying about APICS Education in Colorado?

"I have just completed the CPIM classes and I am excited to take the exam and confident I will pass. I highly recommend taking the instructor led APICS CPIM class. The wealth of knowledge the instructors bring into the classroom will help with grasping the concepts presented, especially if you are not familiar with the material. The real-life examples of the material being presented made the material more understandable for me. My instructors, Honey and Roger, were very adept at bringing these examples of their own experiences into the classroom." **Carie Bontrager, Special Projects Material Handler SME, Gogo Business Aviation**

"I cannot express enough gratitude for the transformative experience I had with the APICS course, provided by the Colorado ASCM Chapter. As a professional striving for excellence in the supply chain and operations management field, this course has proven to be the turning point in my career. The APICS course culminated in a comprehensive certification exam that tested not only our knowledge but also our ability to apply critical thinking and problem-solving skills. Throughout the program, I felt supported by the responsive and knowledgeable staff who were always ready to assist with any queries or concerns. Their dedication and commitment to our success were truly evident. The APICS course is an outstanding opportunity for any professional seeking to excel in supply chain and operations management." **Autumn Chase, Material Coordinator, Gates Biomanufacturing Facility**

"The instructors for the Colorado ASCM chapter are first class. They go above and beyond in explaining the material and give excellent real-life illustrations. I would highly recommend the Colorado ASCM Chapter to anyone that desires to learn more about all of the aspects of the Supply Chain industries." **Manina Harrison, Sr. Manufacturing Planner, Lockheed Martin**

"The APICS CPIM classes taught by the ASCM/APICS Colorado Chapter was outstanding. The knowledge the instructors bring to each class made understanding the material very easy. Every detail has been thought through from how the classroom is set up to help people become engaged and to stay engaged during the class, to bringing in specific instructors who specialize in specific topics, makes this a fantastic learning environment. I believe I will have the competitive advantage when taking what I have learned from the classes and applying it to my career." **Mike Hansen, CPIM, Air Methods**

"I was able to take and pass the CPIM exam suite with the help of the courses offered by my local ASCM/APICS (Colorado Chapter) organization. The detailed review of their materials allowed me to pass each exam at the first attempt. Class discussion and the real-life examples of the concepts helped my understanding enormously. I subsequently took the CSCP classes and just passed that exam. The bi-weekly classes were key to my success. I feel well prepared to handle the challenges of the fast-paced Supply Chain environment!" **Caren King, MBB, CSCP, CPIM, Owner, Accounting First, LLC; formerly Program Manager, Supply Chain Operations, Seagate Technology**
