

Roger Harris, CFPIM, CIRM, C. P.M., PMP, CSCP, CPSM, CLTD, CTSC
President and Coach, APICS Colorado Chapter

Roger brings 43 years' experience in manufacturing and materials management in the defense/weapons, electronics, industrial products, and commercial aerospace industries. Additionally Roger has assisted many clients in the implementation of world-class manufacturing techniques from the following industries: food and service parts distribution, chemicals, electronics, apparel manufacturing, custom tooling and aerospace manufacturing. Roger has held many positions in Supply Chain and Materials Management from Planner to President in his career. In his career Roger has been instrumental in achieving profit-impacting results for his employers and clients through inventory reductions, planning preciseness, lead time reductions, and valid shop priorities.

Roger holds 8 professional certifications in Production and Inventory Management (CFPIM), Integrated Resource Management (CIRM), Purchasing Management (C.P.M.), Project Management Professional (PMP), Certified Professional in Supply Management (CPSM), Certified in Logistics, Transportation and Distribution (CLTD), Certified Supply Chain Professional (CSCP) and Certified in Transformation for Supply Chain (CTSC). He holds a Bachelor of Science Degree majoring in Production and Operations Management from Colorado State University and a Master of Science Degree in Organizational Management and Transportation / Distribution Management from the University of Colorado.

Roger has been a member of the adjunct faculty at the University of Denver and a certified instructor for ASCM, The Association for Supply Chain Management, and has instructed over 8000 students in Supply Chain Management. Roger has held several board of director positions for Colorado ASCM, including 18 terms as president over the past 36 years. In addition, Roger serves on many national and international ASCM committees. Roger is currently the President for the Colorado ASCM Chapter and retired President of MSS Technologies, LLC.
